First name: Jolie

Last name: McCoy

Organization:

Title:

Comments: I am a long time resident and outdoor lover in the Black Hills. I have been active with the Sierra Club and been at several events to support environmentally safe management of the Black Hills National Forest and the Pactola Reservoir watershed. I strongly support the withdrawal of mining in the Pactola area and would suggest extending this withdrawal to the entire black hills area. Outdoor recreation, tourism, safe drinking water, traffic congestion and natural beauty depend on responsible management of minerals in the area. I would like to preserve those for my grandchildren. Mineral extraction benefits wealthy outsiders without local input. Thank you. Jolie McCoy
