First name: Monica

Last name: Hartnett

Organization:

Title:

Comments: Hello my name is Monica Hartnett. I was born and raised in Rapid City. I am a local business owner in Rapid City raising my 5 children here now. I support the mineral withdrawal. I would like it expanded to protect the whole of the watershed. I have been concerned that there has not been much public awareness of this issue. My parents watch the news regularly and were not aware of this issue. I think there would be many more public comments if the public was more informed. So curious How are local residents being informed? Thank you for your answer to my question and your time. Sincerely Monica Hartnett
