Comments: These proposed bike trails are an insult to the people of Taos, who will not receive any benefit whatsoever from turning our mountains into a playground for the rich. These trails will degrade our environment, destroy the privacy of neighborhoods, violate the religious rights of people who have their processions in the area, these horrible bikes will shatter the silence with the roar of bikes, drive away wildlife, leave piles of garbage in our mountains, and deepen the hatred of New Mexicans for the Forest Service, who has a historical track record in New Mexico because of confiscating our land grants - an injustice and outrage they just topped by burning down Mora. I say NO! Unconditionally to these trails. And I will encourage civil disobedience and serious protest.
