Comments: I am in 100% agreement with the proposal to fell hazardous trees as stated. Several years ago I was on the established trail leading off of Highway 4 just beyond the snow gates. As I was hiking on this trail, I heard a crack, and looked around for wildlife, thinking it may be a bear. Seconds later, a massive tree fell across the trail where I had just walked. It's imperative to protect the public by removing the hazardous trees.
