Title:

Comments: As a private forest owner (60ac. west of Priest Lake, near Nordman, all within the Grizzley Bear Recovery area), I am asking the Forest Service to approve the Proposed Action for the Kaniksu Winter Travel Plan.

Unlike Alternative A, the Proposed Action is more protective of wildlife while providing reasonable access for snowmobiling and backcountry skiing. The Proposed Action also showcases a reasonable compromise crafted by a diverse group that represents the region's shared values.
