Comments: I am a current Idaho resident and am from Priest River, Idaho. I am opposed to the proposed action for the Winter Rec/over snow travel plan. Protecting wildlife from direct and indirect impacts must be a priority over pleasure-seeking, high marking snowmobiles and snowbikes. I have read and support the comments submitted by Paul Sieracki and the Alliance for the Wild Rockies. The boundaries cannot be enforced and will result in people inevitably going into sensitive and protective areas and disrupting / disturbing wildlife senselessly. The impacts are so severe that an EIS is needed.
