Comments: As a disabled person living at the 22 mile mark of Rock Creek Road, can the road finally be graded for year usage as compared to being terribly bumpy with holes, rocks, etc ?

It's a scenic forest service road with fishing access but no disabled parking at all. It would be also nice to have disabled parking at the 22.5 mile mark bridge to gain access for across the creek.

Anyway, the unimproved road especially from the 11 to 23 mile marks can be unbearable to drive at times due to its condition never mind being a danger driving being so narrow.

Thank you
