First name: Marcel

Last name: Medved

Organization:

Title:

Comments: I fully support CBMBA's comments and preferred options. Keeping riders and cars separated improves safety and enjoyment. CBMBA and CBCC provide an invaluable service, helping build and maintain trails. I have been volunteering on trail days for 18 years and truly enjoy the single track on foot (running, mushrooming, hiking and hunting) and on mountain bike. Mixing hikers, dog walkers, bikers and runners with cars is recipe for unsafe & unpleasant encounters.
