Comments: Good evening

I've lived in the Gunnison Valley my whole life and have been an active member of the mountain bike community for more than thirty years. I'm writing to express my whole-hearted support for CBMBA's NVPT Draft EA comments. I attended CBMBA's most recent meeting and helped to draft these comments. I feel they are well researched, tirelessly debated, and consider the interests of all user groups as well as the environment and wildlife.

Thank you for your time and consideration.
