Title:

Comments: I think this is an important segment of the bike trail in our area. In my opinion, this comes down to safety. People already ride from Vail to Minturn, and visa versa. But, it is a dangerous ride on a single lane road with no shoulder. I've ridden bikes with my family to Minturn from Vail, but it is very dangerous now. Build this trail to make it easier and safer for cyclists, runners, strollers, etc.
