Comments: I am in full support of this project and believe that it will improve connectivity of our adjoining communities for purposes of transportation and recreation. I would like to see part of the project budget take into consideration maintenance costs for spring clearing of snow from the path to more quickly open travel between the I70 corridor and Minturn, as well as clearing snow from the Dowd Junction section as well. This should be done sooner than not as weather begins to clear as long as there is no restrictions to currently defined areas of animal migratory patterns.
