First name: William

Last name: Klena

Organization:

Title:

Comments: This project would increase opportunities for hunters and all others who enjoy spending time in the forest by improving habitat for a wide variety of species. I enjoy spending time in the forest, and am more likely to drive to Maryland or Pennsylvania to spend time in the woods if this project is not undertaken. This project will benefit native species and maintain forest enjoyment for many people, including myself. Thank you for your consideration.
