Comments: This is a super exciting project that I fully support. It will enhance opportunities for winter and summer recreation in the Rendezvous Trail System, giving locals and visitors from across the country more access to enjoy the outdoors year-round. Paved multiuse trail makes the trail system more accessible for a variety of users, and lighting allows people with 9-5 jobs or children in school to access the outdoors especially in winter months when the daylight lasts only a short time. I love the Rendezvous trails, and I look forward to seeing these improvements in future years.
