Comments: I do not know what embed means so I will do my best. I love the forest. I used to be able to walk up, down or around hills and mountains for hours. I am now 82 and have lost a lot of that ability. I still enjoy the beautiful where I can ride my ATV to it. Right now, my only riding is on Forrest Service roads that are not gated. Competition with logging trucks and cars reduces my enjoyment of the forests I have supported for some 70 years. More wilderness means NO access to people of my age because unfortunately we have lived past our ability to wander in our paradise. Please consider no more wilderness but more access for the fastest growing segment of the population, the elderly. Thank you for any help you can give us.

I do not understand what I should do with the choose file means

Ken Kronsperger
