Comments: I oppose the Greens Creek North Extension Project 57306.

Unless you can prove that mine tailings are not toxic to the environment and humans.

Can you?

Mine tailings will contaminate the entire subject area for forever, this is not okay.

Please Martin Stearns respond with an answer that makes sense. You obviously did not have very much to say for the residents of Angoon.

Do you actually care for the people of Angoon?

Is this a checking of the box that you had to do.? Mr. Howard had it right, in the end it will not matter what he had to say, Greens Creek will divide and conquer and not even flinch.
