Regarding Appendix A-Summary of Preliminary Proposed Trail Actions

The Dillon Reservoir Rec Path is listed as WMU for skiing & snow shoeing. The trail was plowed this year rendering it not available to ski or snow shoe & not safe to walk on for over 40 days this winter due to ice hazards. Many of us would like to see this section groomed this year for winter multi use. There was a petition with 150 names & emails asking the Town Council to stop the plowing & to groom it instead. Thank you.
