Comments: Good evening, I'm just hearing of this project, I feel it's premature for a couple of reasons. I live right in the target zone, so I'm concerned about smoke issues ant my house , and access to trails including rainbow lake, and Mount Royal. Will they all be closed at the same time? Or is it a staggered event? is there any way to push this towards late fall into winter? So we still have access the summer months ,the most ideal for recreating in these areas
