Title:

Comments: Please consider the mountain bike trails in the Backyard and create corridors for recreation as the mitigation takes place.

Please DO NOT decommission the only "natural" trails that Frisco has access to such as the Cabin Loop and other social trails that simply make us Frisco residents and neighboring communities happy as other known trails are over run by tourists.

Careful thought, and attention need to be addressed to keep the culture of these trails feeling primitive and "remote" as the mitigation takes place.

Thanks for considering our feedback and engaging Frisco constituents in the process to keep the culture, feel and "remoteness" of these trails of top priority so we can maintain the character of the community of our town.

Shauna
