Title:

Comments: As an employee of Hecla Greens Creek I am writing in support of their request to expand their Tailings Disposal Facility. I favor Alternative D. As an employee I see firsthand the company's commitment to being the best stewards of the environment as they can. As a workforce we all understand how important it is to protect the environment in which we work, especially one as unique as a National Monument. Alternative D is a continuation of the tailings management plan that we have successfully managed for years now and will minimize any additional monument disturbances. I am fully in support of this request and support Alternative D.
