Comments: I believe Taos Ski Valley should stop any development affecting the Acequia water source. I am from Des Montes and the Robalse Ditch has been in my family for generations. I will be moving back to Des Montes after 23 years to continue this important cultural tradition. I am taking over for my father, Floyd Archuleta. I want to make sure that my father, my family, and my ancestors know the water will continue to run. Please stop the development.

Thank you!
