Comments: The wants of Taos ski valley aren't more important than the needs of the locals of Taos for water and access to public lands. It is an entitled perspective that believes this won't affect the valley of Taos. We don't need a mega resort. It's plenty developed up there. Using the mountain and water as a cash grab for a resort that becomes more and more exclusive and expensive is greedy and Taos won't let it slide.
