Comments: Greens Creek Mine Expansion

Matthew, I support the mines request to expand their Tailings Disposal project and favor Alternative D. It is a rare mining project where an expansion represented by their design has such a small environmental footprint and has zero impact on sensitive habitats. I have followed this facility since the mid 80's and the mine and the community should be proud of their environmental record. We are so fortunate to have this facility which is an economic generator while having what I consider, zero negative impacts.

Pat Kemp,
