Comments: To Those Concerned:

Having lived here for 50 years and seen the terrible effect of global warming on our mountains, I am against any further growth in the ski areas here, including Taos. People that already live here need the water. Certainly, at the very least, an environmental impact statement needs to be done.

Also, any development which restricts access to the forest or Williams Lake should be scrapped. The forest belongs to all of us, not just those exploiting it for personal gain.
