Comments: I completely disagree with this proposal. How about fixing the infrastructure that already exists and addressing environmental concerns before building more crap to profit off of. The ski valley profits off of tourism and private enterprise with no connection or gain for the community of Taos and people that live here. It's a high cost theme park to fill pockets of millionaires who don't live here and understand or care about the community of Taos. Please reconsider. There are so many ways this money and effort could be invested that actually benefit people other than the rich. Look around at the town and tell me the best thing to do would be to build some swanky "improvements" to the ski valley that the general local population will never even afford to visit.
