Comments: I am angered to learn of the continued overdevelopment of the Carson National Forest at Taos Ski Valley, including projects for which water rights have not been secured. Proposed projects will degrade the water flow and quality in the Rio Hondo and wreck the wilderness all the way up to Williams Lake (what's left of the wilderness after all the building over the past two decades). STOP!! Inflicting your greed on the forest, the water, the animals, and the rest of us.
