Comments: Hi there,

As a New Mexico citizen I am urging you to not allow & stop the Taos Ski Valley expansion project. Wasted water & irresponsible water conservation practices by this resort combined with our already hurt regions from wildfires last year & drought worries does not benefit the communities & non-human species of Taos or NM. We need to prioritize the safety of our communities and generations behind us by ensuring natural clean & abundant watersheds and lands. Not assisting in large to further extreme degradation of such limited watersheds & healthy natural ecosystems we have left.

Thank you for hearing me ??
