Comments: As a resident of Spearfish, I'm concerned about any mining or major development in the Spearfish canyon area. Spearfish canyon is critical to the Spearfish economy due to the draw for both major summer tourism traffic that comes through the area to experience the natural beauty. During the winter months, that area draws outdoor enthusiasts from around the black hills to snow shoe, ski, fat bike, and snowmobile. Again this area is critical to bringing people to the area which drives the Spearfish economy. Also, this area is a major draw for people moving to the area which is important for future economic growth.
