Comments: I ski Big Hill and Eagle Cliff Ski Areas frequently. They represent a small portion of the Black Hills that have been permitted to be used for cross country skiing with no disruption by motorized vehicles. Driving on those trails has always been restricted. Disruption of any kind would impact those trails negatively.

I also ride bikes at Big Hill in dry times of the year. It provides a very nice way to escape all the noise and bustle of the perimeter areas of the Black Hills.

Leave the area be. We need some areas reserved from destruction and manhandling.
