Comments: I have been a resident of Lawrence County for over 70 years. I love the natural beauty of the area and the unspoiled hiking trails. I understand what a great impact tourism has on our economy. I don't want our wonderful Black Hills spoiled by more mining which will impact our residents and visitors in a negative way. The clean water in our area is becoming a critical issue and will be greatly affected if mines are developed in our Beautiful Spearfish Canyon. Please do more impact studies.
