Comments: Spearfish canyon is where I spent my college years from 1978-1982 and I loved it, Mining should NOT take place anywhere near this beautiful landscape. The Big Hill area is also an amazing place for bike rides and horseback riding and x country skiing and should be left untouched for our children coming forward, to have a place to be able to be outdoors in nature. NATURE is where children and adults need to be . Keep our hills being HILLS .
