Comments: I don't think there should be any more drilling in the Black Hills. We have enough holes and enough mines.. we have ruined enough living spaces, literally taking my own home as a child for mining! Warf Mine it's another huge hole in the ground that can never be replaced can ever be the playground it was when I was a child. Distorted where I skied and sled with my brother. It can never possibly look the same. You can't put rock back , you can make a mound, but it will never look the same. They poisoned our drinking water my little brother had cyanide poisoning. None of this is OK the mines the more water we lose. Vote NO
