Title:

Comments: Please keep drilling out of our hills. It can take away from the natural beauty of the area and the reasons that people come to the hills. While drilling companies say that they will take care of our water and make the area the same as it was before, but we know that is not possible. Please keep drilling out of our hills! We love this area and look forward to raising our children with all of the trails and outdoor areas that we currently have. Please protect our unique and beautiful area. We are asking for an EIS.
