Comments: I stand against drilling in the Black Hills because many places where me and my family bike, hike, run, and xc ski will be destroyed. I have lived here all my life and this would make the Black Hills less beautiful and these places are used by the public all the time. There is a bike race that is on the proposed mine sites that is a fundraiser for a local no-profit, Northern Hills CASA, which helps with neglected and abused children in court systems. This race is loved by many people in the Black Hills.
