Title:

Comments: I'm requesting an EIS full NEPA survey because of the impact I feel this mine will have on our trails. I ride these trails year round. During the winter I fat bike on them and in the summer I hike and mountain bike on these trails. I hope someday I can share these trails with my son who is now 6 months old. I'm afraid if this mine is approved these trails will never be the same and provide the same enjoyment that I have riding them.
