Comments: I am writing to ask for an EIS (full NEPA study) because I am concerned and worried about the effects that mining in Spearfish Canyon will have on the water and also the wildlife. Spearfish Canyon (while home to many plants and wildlife) is also a place that many people hold near and dear to them because of the beauty it possess. It would be irresponsible to not take every action we can to assess/ avoid the possible damage that the mining could result in.
