First name: Tyrell

Last name: Ehnes

Organization:

Title:

Comments: Seriously concerned for multiple reasons. As a product of a mining family and seeing complete destruction caused by mining, it seems minimal information is actually shared with the public. The areas proposed would be fiercely invasive to land, air, water. Wildlife and my sanity as a connoisseur of this pristine land. Completely against any proposal of this manner in our backyard. When you piss off the masses you will soon be dealing with the mob.
