Comments: The Methow Valley is a one of a kind place. I still recall the photo my boyhood friend Jim Smith took of Sun Mountain on an October morning before Sun Mountain Lodge existed. A lot has changed since then but it is still special. The Midnight Restoration Project #63933 will make the Methow not special forever. And so I do not support it going forward. In particular, I feel for the people who live there and whose lives and identities (and property values) are tied to no further degradation of the Valley. If Midnight Restoration Project #63933 is allowed to proceed who would want to visit; who would want to go there let alone live there. Nothing is more unsightly or more damaging to an ecosystem than logging with no accountability. Unlike fires there is nothing productive about it.
