Comments: The impact of this project will have a huge detrimental impact on Spearfish Canyon. People from all over the county , not just the residents of Spearfish and the surrounding Black Hills will be negatively affected by drilling in the canyon. Spearfish Canyon is a National Scenic Byway and people throughout the country visit the canyon. This will have a negative impact of the beauty of the canyon, the residents of the canyon and the surrounding areas, the water , the recreational activities that take place in the canyon and tourism. Please do not allow this to happen
