Comments: No mining company needs to try and find gold or mineral's in Spearfish Canyon. There is no place like this area that gives life back to our very souls in abundance. It is enjoyed by every generation who travels here from around the world. Why would we even think twice about ravaging this area with mining? Our wildlife is spectacular, our streams are cold and clear, out pines flourish!

We the people who know this Canyon and love it VOTE NO!

No profits to a mining company would be worth the devastation this would cause!
