Title:

Comments: As a life long resident, I am against all mining/drilling in the Black Hills area. The sacred, beautiful Black Hills would be ruined with this project. Raising three boys, we frequent the Black Hills to enjoy the serene and peaceful environment. We would be devastated if we couldn't access our favorite hiking/biking/walking paths and trails. Leave the Black Hills alone for everyone and future generations to continue enjoying the Black Hills, as it is!
