Comments: I am strongly against and greatly concerned about the Golden Crest Project. It will have a huge negative impact on our forest, recreational activities and communities. In the least the Forest Service should do a full Environmental Impact Statement on this project, not just a short Environmental Assessment . One wonders if the reason for the dramatic curtail of logging in the Black Hills was to usher in mining access to corporations. It seems suspect in the least. The proposed sites are precious locations for families and individuals to explore, hike and spend time.

Again-I am vehemently against this project.
