Title:

Comments: I'd like to say that I travel over seven hours by car to experience the scenic beauty of this area. My primary activity of enjoyment in the area is the mountain bike trails which I found to be nationally unique in their construction. My travel brings economic improvement to the area during my stay. I've encouraged others to make this trip with me, further improving the economy of the area.

My fear is that disruption to the mountain bike trail system would reduce the opportunity to experience nature to a degree in which exploring and traveling to the area would no longer be of interest. Please complete the environmental survey with great care and thoroughness.

Thank you,

Brian
