Comments: The fact that they mining operations such as this would be even considered in our national forest is shocking to me. It's so close to the canyon the trails it would impact the wildlife. It would impact these minds don't belong here. The people don't want them here the fact that we would let some company that has nothing to do with this area come in here and caused the damage that this would cause is ridiculous, it's definitely not what I want to see why I'm out on the trail or enjoying our forest. I can only hope that the outreach of our community against this will show you that it is not wanted or needed here and that you need to deny any permits for drilling or mining in the Black Hills. Especially this one. Thank you.
