Title:

Comments: I am a resident of Black hills, specifically the Spearfish area for over 25 years. My wife and I raised four children here and although three of them have moved away, they return multiple times per year to enjoy the Black Hills, specifically the areas listed above. The mountain biking, hiking camping, and other outdoor activities that take place in The proposed drilling sites are unmatched in the hills. Disrupting this environment would in my opinion be devastating to not only the enjoyment of generations to come, the beauty of the area itself, the sacredness of the outdoor landscape, but also economically impact this community in a negative way.
