First name: Jeffrey

Last name: Nelson

Organization:

Title:

Comments: I am writing to let you know that I am very much against and mining or exploration for mining in the primary Black Hills watersheds. They are and will become even more the lifeblood of this economy and wellbeing of the hills. I will not cite statistics, you have all of those.

Please do the right thing for our region. For our people and the preservation of this precious resource for generations to come.

Jeff Nelson

Rapid City Resident
