Comments: I support the Pactola area mineral withdrawal and request that:

1. The Forest Service vote YES to the Pactola Reservoir-Rapid Creek Watershed Withdrawal.
2. The Forest Service hold an Environmental Assessment (EA).
3. The Finding of No Significant Impact (FONSI) is released when the EA has been completed.

I believe that everyone has the right to clean water that is free of chemicals and pollutants and that the lands of the Lakota People should be respected and preserved.
