First name: Kerry

Last name: Kreger

Organization:

Title:

Comments: To Whom it May Concern,

Please withdraw the proposed projects at the Rapid Creek Watershed. The clean water must be protected from toxins and pollutants that are caused by mining and mineral extraction process.

This watershed provides clean water for drinking and bathing for countless families and their children. Let us continue to protect the pristine water supply at Rapid Creek Watershed for the generations ahead. And please protect all the water and lands in the beautiful Black Hills.

Sincerely,

Ms. Kerry Kreger
