Comments: It is important to protect the Black Hills and surrounding areas. These are sacred lands for Native Americans and it is important to come up with a solution that all sides can live with. I would like the Forest Service to agree to the actola Reservoir-Rapid Creek Watershed Withdrawal, do an Environmental Assessment (EA), and ask for a Finding of No Significant Impact (FONSI) when the EA has been completed. I feel that these actions are important to ensure that these lands are protected from the damage that may occur to these lands from mining and other business activities.
