First name: Kala

Last name: Storbeck

Organization:

Title:

Comments: This cannot happen in our community! This area is already considered a gold mine to all of the locals who live here! Mining in this are would totally destroy WHY we CHOOSE to live here. Not to mention literally killing all of us and the wildlife, native plants, and insects. We will not have this mine!! You better find a new place because every one of us that calls this area their home, won't let you!
