Title:

Comments: Hello,

On behalf of myself, Nature, Life and all that has a really get to life & living, I respectfully speak up for all acts moral, ethical and responsible that preserve the right and f life & living, for the greater good of all living beings, present & future.

Please withdraw from the Pactola Reservoir-Rapid Creek Watershed from the current proposal. I also ask that the Environmental Assessment be conducted and that a Finding of No Significant Impact be concluded as a result of the Environmental Assessment, since the miners withdrawal won't create one.

In conclusion, I am in full support of the mineral withdrawal, any action that protects and preserves water quality, respects local cultural values, such as safe drinking water, free of toxic pollutants, and respect for the sacredness of the lands, the natural life on that land, to include the Lakota People, as well as, preserving the site for the sake of what is right, what is responsible and what serves the sacredness of all natural life forms.

Please preserve nature so that we all may enjoy a sustainable future.

I thank you now, for your Conscious consideration!

Sincerely,

Marcus Chambers
